PRINZ CUTTING EQUIPMENTS

W O O D

BEST CUT RESULTS WITH PRINZ CUTTING EQUIPMENTS

PRINZ guide bars, sprockets and pulleys, as well as all the other parts, are all manufactured in-house at Loosdorf in Austria. They are made out of solid steel and do not only fit PRINZ machines but most other common chain saws too.

Our guide bars are principally available in 3 different versions:

- high frequency hardened
- with hard faced edge on one side
- with hard faced edge on both sides

CUTTING EQUIPMENTS SUITING PRINZ SAWS:

cross-cut saw	sprocket	guide bar sprocket side	cutting length	guide bar pulley side	pulley	groove
PC120			140 cm 150 cm 175 cm			3 mm

PRINZ RANGE OF GUIDE BARS EXPERT-LINE

Up to 30% more longevity!

These guide bars are perfectly suited to meet the highest requirements for the timber and round timber applications.

The running surfaces can be renewed several times and a special coating guarantees for an extreme longevity. Additionally, the running surfaces have excellent gliding properties for the chain and the special ground material guarantees the highest cut accuracy. EXPERT-LINE guide bars offer up to 30% more longevity compared to other conventional guide bars.

EXPERT-LINE guide bars can be mounted on PRINZ, Holtec and Storti saws.

PRINZ SERVICE AND ACCESSORIES

Our Service:

Our service team can refurbish your used guide-bars several times. Also guide bars of other producers can be repaired.

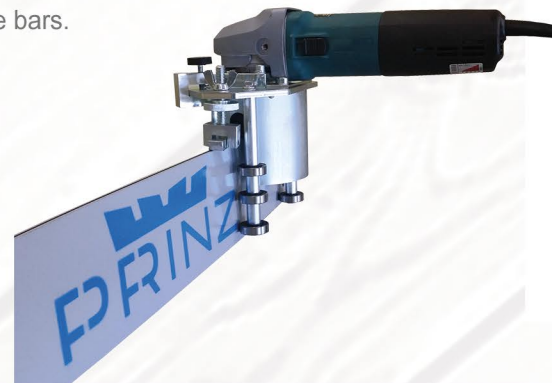

✓ PRINZ SPECIAL SAW-CHAIN OIL:

obtainable in 100 and 150 viscosities • for optimal protection of your bars and chains
• outstanding lubricating and adhesive power • by using PRINZ special saw-chain oil, you achieve the highest degree of service life for your guide bars, chains, chain drive sprockets and pulleys • obtainable in 5 l, 60 l and 210 l package

✓ PRINZ PEG EQUALIZING DEVICE:

PRINZ PEG is best suited for the optimal repair and maintenance of all guide bars. With the PEG, you extend your cutting equipments' service lives in a simple way. The guide bar's running surfaces are corrected and burr formation is ground off.

V1-20 | Errors and misprints excepted.
